GreenMail

Email sand box. Check their [website](#)

Run

start-greenmail.sh

```
#!/usr/bin/env sh
docker pull greenmail/standalone:1.6.0
docker run -t -i -p 2525:3025 -p 3110:3110 -p 3143:3143 \
             -p 3465:3465 -p 3993:3993 -p 3995:3995 \
             greenmail/standalone:1.6.0
```

GreenMail and round cube

Round cube is a webmail client. Run both Round cube and green mail using docker compose

start.sh

```
#!/usr/bin/env sh
./stop.sh
docker-compose -p GreenMail pull
docker-compose -p GreenMail build
docker-compose -p GreenMail up -d
```

stop.sh

```
#!/usr/bin/env sh
docker-compose -p GreenMail down -v
```

docker-compose.yml

```yaml
version: "3.2"

services:
  greenmail:
    image: greenmail/standalone:1.6.0
    ports:
      - 2525:3025
